

Now Available: Return-to-Coaching Guidelines for In-Person NCCP Delivery

The NCCP COVID-19 Task Force, in consultation with the Partnership and medical and legal professionals, has produced guidelines in line with public health measures to help NCCP Partners mitigate the spread of COVID-19 as they return to in-person delivery.

These resources include:

- [A Technical Document providing safety considerations and guidelines to implement during in-person NCCP delivery](#)
- [A Club Risk Assessment and Mitigation Tool Developed by Own The Podium](#)
- [A printable 11X17 poster with safety guidelines for your classroom\(s\)](#)

All of these resources are available within the Partner Protected Area of [Coach.ca](https://coach.ca).

The resources are based on Public Health of Canada guidelines to prevent infection and reduce risk of spread of COVID-19 during in-person workshops. **They are not intended to overrule or contradict Provincial or Territorial Public Health guidelines or sport-specific guidelines.** Sport organizations and other host agencies should return to in-person NCCP delivery only when appropriate jurisdictional government authorities modify restrictions to safely do so.

In addition, the CAC will host several information webinars related to Return-to-In-person learning in the next few weeks. The first of these will immediately follow the regularly scheduled August 20 NCCP Partner Call. More details will follow.
